Multi Add Attachments

Installation Instructions

1. Install the AppExchange package.
2. Create the buttons on the objects you like multi add attachments:
 - a. Click on Setup and Choose the Standard or Custom Object you'd like to work with.
 - b. Click on Buttons and Links for Standard Objects and Custom Buttons or Links for Custom Objects.
 - c. Click New
 - d. Label the button "Add Attachments". Use the default name.
 - e. Click "Detailed Page Button"
 - f. Under Behavior, select "Execute Javascript"
 - g. Paste the following code into the text area:

```
window.parent.frames.location.href = "../apex/addAttachments?parentId='"+INSERT_ID_FIELD' ;
```

- h. Insert the ID field of the object into the area that says INSERT_ID_FIELD.
 - i. Press Save.
3. Add the custom button to your page layout.
